ix DAS  
The system with the  
extra service.

### Advantages

- High safety
- High key  
copy protection
- Long-term  
patent protection

## ix DAS

Complete protection  
with only one key.

You can turn the ix DAS reversible key whichever way you want: it will always fit. Extremely practical and easy on your pocket, but convenient as well! As a home owner, you no longer need to carry a big bunch of keys with you. Whether front door, apartment door, cellar door, letter box or garage key – with the innovative locking system ix DAS you have everything under control with just one key!

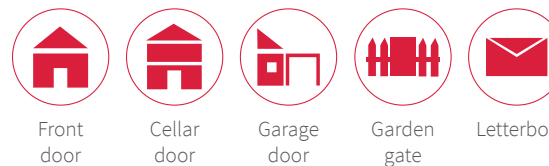

## Advantages

- **HIGH SAFETY**  
Up to 21 locking authorisation queries per key make it almost impossible to overcome the cylinder of the locking system.
- **HIGH KEY COPYING PROTECTION**  
The special high-deep milling in the key prevents copies of the key being made.
- **LONG-TERM PATENT PROTECTION**

## More safety on the cards

You receive an ID card for individual locking or a service card for master key systems with the system ix DAS. This is your special added safety!

Because one of these cards must be presented to the specialist dealer if you require copies of the keys to be made. So there is really more safety on the cards with the ix DAS.

Front  
door

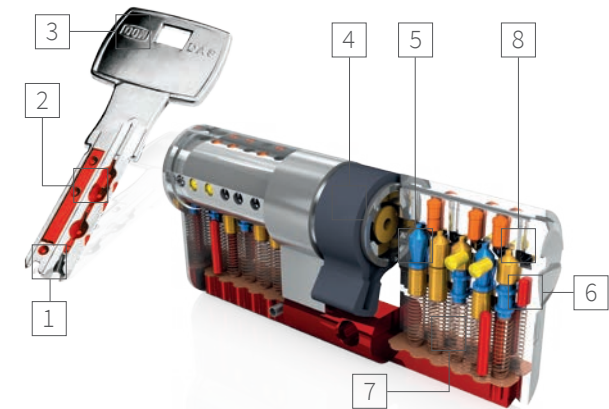

Cellar  
door
